Run this line at random v.  $5^{\circ}18'$  and at end of 6. 04. 61 Intersected town line 12.50 east of Cor. of T. 34 & 35. R. 5 & 6 E — I have been often vexed & surprised at my closes on this old work but thought this time there must be a mistake in my work — so run this line & measured it over — measured the whole of the S. by T34 R6 — and found them both entirely correct

Beyond I began this tier of towns I took the bearing of the S by T35 R6 — by running accurately — by the w.  $\frac{1}{2}$  S. by sec 32 — I could see one post from the other with two station trees in range — and found the Var.  $5^{\circ}58'$  — although I saw at the same time found the S by sec. 31 did not bear the same by some  $40'$  yet I thought that by running at  $6^{\circ}$  would straighten the work but I have been again deceived and after spending seven days about T. 34 R6 have left it thus

Note <sup>at</sup> This line is some chains  
shorter than it should be  
according to the Bar. I ran  
the N & S bounds of the Towns  
east of it — but I find no  
mistake in the measurement in  
chaining it correctly a second  
time — I suspect the measurement  
across the Lake as I discovered there  
was some quite powerful local attraction  
when I took my observations (on the  
South side) — Made them different

Land to Seller

Note Minomuncies & Co. Reserve of 22  
sections - I presume must be laid in this  
neighborhood - their village is about  
 $1\frac{1}{2}$  miles south of this mile - but where  
they intend to have it extend north to this  
line I do not know - The Indians are  
all gone to Chicago and the laying  
of it off must be deferred

Sept. 27 1833 Chas Loomis

I do hereby certify that in pursuance  
with a Contract between M<sup>r</sup> J Williams  
Surveyor General of the United States  
for the States of Ohio & Indiana and  
the Territory of Michigan and Robert  
Clark Esq & Sylvester Libbey bearing  
date the 1<sup>st</sup> day of July 1833, and  
in strict conformity to the laws of the  
United States and the instructions of  
the said Surveyor General, I have  
laid out & surveyed the exterior Town  
Ship lines described in the foregoing  
pages of this book - which are the  
true & original field notes of the  
surveys which they purport to be  
as taken on said lines

Certified this 10<sup>th</sup> day of May 1834

Robert Clark Esq Dep. Secy

Samuel A Fitch } Chain  
Friend Marks } - canons

Joseph<sup>his</sup> Mettee Assessor  
Mark
